SUMMARY

Motivated and detail-oriented Computer Science student with front-end development experience using HTML, CSS, JavaScript, and React. Passionate about creating elegant, user-centered designs and exploring emerging technologies—especially artificial intelligence. Proven ability to collaborate in high-pressure, fast-paced environments through multiple hackathons, where creative problem-solving and rapid prototyping were essential. Eager to grow as a software engineer, contribute meaningfully to innovative projects, and continue developing a strong foundation in both practical engineering and cutting-edge tech.
